INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
North Babylon Public Library
815 Deer Park Avenue
North Babylon, New York 11703

We have audited the accompanying basic financial statements of the governmental activities and each major fund of North Babylon Public Library as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of North Babylon Public Library, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of proportionate share of the net pension liability, the schedule of library pension contributions and the schedule of changes in the Library's total OPEB liability and related ratios on pages 5 through 9 and 30 through 35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Using This Annual Report

This annual report consists of three parts- *management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include information that presents two different views of the Library:

- The first three columns of these financial statements include information on the Library's Funds under the modified accrual method. These *Fund Financial Statements* focus on current financial resources and provide a more detailed view about the accountability of the Library's sources and uses of funds.

The adjustment column of the financial statements represents adjustments necessary to convert the fund financial statements to the government-wide financial statements under the full-accrual method.

- The *government-wide financial statement* columns provide both long-term and short-term information about the Library's overall financial status. The statement of net position and the statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. These statements tell how these services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

The Library As A Whole

- The Library's net position increased by \$357,005 this year. The most significant reason for this increase was lower than expected expenditures, which was detailed within the Statement of Activities on page eleven.
- The Library's primary source of revenue is from property tax related items, which represents 99 percent of total revenue. This is the same percentage as compared to the prior year.
- As is typical of service agencies, salaries and benefits are a significant expense of the Library, representing 79 percent of the Library's total expenses (as per the Statement of Activities). In the prior year salaries and benefits represented 77 percent of the Library's total expenses.

The Library Funds:

Our analyses of the Library's major funds are included in the first three columns of pages 10 and 11 on the respective statements. The fund columns provide detailed information about the most significant funds – not the Library as a whole. The Library Board has the ability to create separate funds to help manage money for specific purposes and to maintain accountability for certain activities. The Library's major funds consist of the General Fund and the Cultural Programming Fund.

The fund balance of the General Fund increased during the year from \$1,614,854 to \$2,081,749. This is primarily the result of the budgetary highlights described below. The fund balance of the Cultural Programming Fund increased during the year from \$8,074 to \$9,502.

Budgetary Highlights:

The following are explanations for the significant variations between the Library's final budget and the actual results of the General Fund:

- In total, the unfavorable budget variance for library revenues was \$77,810. This was partially due to collecting fewer fines than anticipated. During the pandemic the Library migrated to automatic renewals and waived fines for children's materials. The other significant reason for the unfavorable variance was due to budgeting \$40,000 for the transfer of prior year surplus. The Library used this budget shortfall as a mechanism to return to the taxpayers some of the surplus that had been built up over the past few years.
- The budget line for E-rate reimbursement had a favorable variance of \$5,455. The Library does not budget for this income because it is not a source of funding that can be determined or depended on.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Budgetary Highlights: (Continued)

- The Library attributes the favorable variance in the salaries budget section to the fact that during the pandemic induced building closure they did not have to pay for as many Page hours as anticipated. In addition, the Library reduced the number of Clerical staff working at the circulation desk.
- The New York State retirement budget line was underspent by \$57,731. This was the result of projecting an amount based on information provided by the New York State Retirement System approximately a year in advance of the billing. The actual amount billed was less than the Library's projection.
- The budget line for health insurance was underspent by \$52,223. This was partially due to having premiums increase less than expected and partially because two recent staff hires did not opt for health coverage as had been anticipated.
- The budget lines for books, DVD's, as well as general supplies were all underspent. The Library attributes this to the three-month COVID-19 related building closure. The Library was unable to continue its ordering and receiving of these items.
- The online services budget line was underspent by \$8,076. The Library attributes this to the fact that during the three months that the Library was closed for the pandemic, there was very little online use and most of the Library vendors agreed to extend their subscriptions.
- The budget line for Library programs was underspent because most on-site programming was cancelled or curtailed during the COVID-19 pandemic.
- The budget line for equipment repair and service contracts was underspent by \$19,934. Due to a significant decrease in use during the pandemic, fewer repairs were required.
- The budget line for postage was underspent because the Library mailed fewer overdue notices. This was partially because they reduced the number of notices from three to two, and partially because circulation was down approximately 60% from pre-pandemic circulation numbers.
- The budget line for S.C.L.S. basic service fee was underspent by \$6,534 because the fee did not increase as much as had been expected.
- The budget line for legal counsel was underspent because fewer services were required than anticipated.
- The budget line for electric was underspent by \$10,838. The Library attributes this to its energy efficient HVAC and LED lighting improvements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Budgetary Highlights: (Continued)

- The budget line for building repairs was underspent because the Library has held off on repairs since it will be doing a small expansion project in the next fiscal year.
- The budget line for security service was overspent as more services were required during the pandemic.
- The capital outlay budget section was underspent by \$46,906. Since the Library has decided to do a small expansion project during the 2021-2022 fiscal year, it postponed certain capital expenditures.

Capital Assets:

During the fiscal year, the Library purchased \$3,094 of fixed assets (capital outlay). The purchases were for computer equipment.

Debt Administration:

The only long-term debt that the Library has is to its employees for compensated absences, its net pension liability, and its obligation for other post-employment benefits. The liability for compensated absences at June 30, 2021 was \$366,645. This represents a decrease of \$1,194 from the previous year. The net pension liability at June 30, 2021 was \$3,735. This represents a decrease of \$1,068,689 from the previous year. The obligation for other post-employment benefits at June 30, 2021 was \$4,216,249. This represents an increase of \$233,878 from the previous year.

Currently Known Conditions:

The Library budget vote for the 2021-2022 fiscal year was approved by the taxpayers. The anticipated tax revenues will be \$3,180,325. This represents a 1.42% increase over the 2020-2021 fiscal year budget.

NORTH BABYLON PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1: Summary of Significant Accounting Policies

The accounting policies of North Babylon Public Library conform to accounting principles generally accepted in the United States of America as applicable to governmental units. Accordingly, in June 1999, the Governmental Accounting Standards Board issued Statement No. 34, *Basic Financial Statements – and Managements Discussion and Analysis – for State and Local Governments*. Some of the significant changes in the statement include the following:

- A Management's Discussion and Analysis section providing an analysis of the Library's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Library's activities.
- A change in the fund financial statements to focus on the major funds.

The following is a summary of the significant accounting policies:

- A. **Reporting Entity:** The North Babylon Public Library coordinates the raising of its real estate tax revenues with the North Babylon Union Free School District. The Board of Trustees is responsible for the approval of the annual budget and oversight of the Library management's control and disbursement of funds and maintenance of assets. The Library's management is solely responsible for day-to-day operations.
- B. **Management Focus, Basis of Accounting and Financial Statement Presentation:** The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds).

Government-Wide Financial Statements: The Government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund governmental activity has been eliminated from the government-wide financial statements.

The Statement of Net Position includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

NOTES TO FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (Continued)

B. Management Focus, Basis of Accounting and Financial Statement Presentation:
(Continued)

Fund Financial Statements: Governmental fund financial statements are reported using the modified accrual basis of accounting prescribed by the Governmental Accounting Standards Board and the State of New York's Department of Audit and Control, Division of Municipal Affairs. Under this method, revenues are recognized in the period in which they become both measurable and available. The Library considers all revenues reported in the governmental funds to be available if the revenues are collected within a reasonable period of time after fiscal year end, except for real property taxes, which are considered to be available if they are collected within sixty days after the end of the fiscal year. Fees and other income items other than interest income are recorded when received in cash. Expenditures are recognized in the period in which the liability is incurred. However, debt service expenditures, if applicable, are recorded only when a payment is due. The Library reports on the following funds:

General Fund: This fund is established to account for resources devoted to the general services that the Library performs for its taxpayers. General tax revenues and other sources of revenues used to finance the fundamental operation of the Library are included in this fund.

Cultural Programming Fund: This fund is established to account for resources collected and used for various types of trips, educational and physical education.

- C. Capital Assets:** Capital assets are defined by the Library as assets with an initial cost of \$500 or more, and an estimated useful life of more than two years. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The Library building has not been capitalized as it is owned by the School District. Library books and materials are not capitalized. Depreciation is provided on the straight-line basis over the following estimated lives:

Furniture and equipment	5 to 15 years
Fixtures	20 years
Building improvements	40 years

NORTH BABYLON PUBLIC LIBRARY

NOTE 1: **Summary of Significant Accounting Policies (Continued)**

- D. Fund Balance Classifications:** The Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* that defines the different types of fund balances that a governmental entity must use for financial reporting purposes. They are as follows:

Nonspendable: This includes amounts that cannot be spent because they are either not in spendable form (i.e. inventories, prepaid expenses, etc.) or they are legally or contractually required to be maintained intact.

Restricted: This includes amounts with constraints placed on the use of resources. These constraints can be externally imposed by creditors, grantors, contributors, or imposed by laws and regulations.

Committed: This includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Library's Board. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned: This includes amounts that are constrained by the Library's intent to be used for specific purposes but are neither restricted nor committed. The Library Board is not required to impose or remove the constraint. Assignments of fund balance cannot be made if it would result in a negative unassigned fund balance.

Unassigned: This includes the residual classification for the Library's general fund. This classification represents fund balance that has not been assigned to other funds, assigned for specific purposes, restricted, or committed.

- E. Order of Use of Restricted/Unrestricted Net Position and Fund Balance:** When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the Library's policy is to apply restricted net position first. Expenditures incurred from unrestricted resources are applied to committed fund balance as determined by the Board, then to assigned fund balance, and then to the unassigned fund balance.

- F. Use of Estimates:** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the period. Actual results could differ from those estimates.

**NORTH BABYLON PUBLIC LIBRARY

NOTE 1: Summary of Significant Accounting Policies (Continued)

- G. Investments:** The Library's investment policies are governed by State statutes and its own written investment policy. Permissible investments for the Library include special time deposit accounts, certificates of deposit and obligations of the United States of America.

NOTE 2: Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less.

NOTE 3: Concentration of Credit Risk

The Library maintains all of its cash balances at two banks. At year end, the Library's carrying amount of deposits was \$2,181,055 (excludes petty cash) and the bank balance was \$2,195,544. Of the bank balance, \$750,000 was covered by federal depository insurance and \$1,445,544 was covered by collateral held by the Library's agent.

NOTE 4: Capital Assets

A summary of changes in general fixed assets is as follows:

	Balance as of 7/1/2020	Additions	Deletions	Balance as of 6/30/2021

NOTE 9: Retirement Plan

- A. **Plan Description and Benefits Provided:** The North Babylon Public Library participates in the New York State and Local Employees' Retirement System (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four-year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November 2018, he was elected for a new term commencing January 1, 2019. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The North Babylon Public Library also participates in the Public Employees' Group Term Life Insurance plan (GTLI), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

NOTE 9: Retirement Plan (Continued)

- B. Benefits Provided:** The System provides retirement benefits as well as death and disability benefits.

Tiers 1 and 2

Eligibility: Tier 1 members, with the exception of those retiring under special retirement plans, must be at least age 55 to be eligible to collect a retirement benefit. There is no minimum service requirement for Tier 1 members. Tier 2 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of final average salary for each year of service.

Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 1 members who joined on or after June 17, 1971, each year of final average salary is limited to no more than 20 percent of the previous year. For Tier 2 members, each year of final average salary is limited to no more than 20 percent of the average of the previous two years.

Tiers 3, 4, and 5

Eligibility: Tier 3 and 4 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. Tier 5 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

NOTE 9: **Retirement Plan (Continued)**

B. **Benefits Provided: (Continued)**

Tiers 3, 4, and 5 (Continued)

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5 percent of final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 3, 4 and 5 members, each year of final average salary is limited to no more than 10 percent of the average of the previous two years.

Tier 6

Eligibility: Tier 6 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75 percent of final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2 percent of final average salary is applied for each year of service over 20 years. Tier 6 members with 10 or more years of service can retire as early as age 55 with reduced benefits.

Final average salary is the average of the wages earned in the five highest consecutive years. For Tier 6 members, each year of final average salary is limited to no more than 10 percent of the average of the previous four years.

Ordinary Disability Benefits

Generally, ordinary disability benefits, usually one-third of salary, are provided to eligible members after 10 years of service; in some cases, they are provided after five years of service.

Accidental Disability Benefits

For all eligible Tier 1 and Tier 2 ERS members, the accidental disability benefit is a pension of 75 percent of final average salary, with an offset for any Workers' Compensation benefits received. The benefit for eligible Tier 3, 4, 5 and 6 members is the ordinary disability benefit with the years-of-service eligibility requirement dropped.

NOTE 9: Retirement Plan (Continued)

B. Benefits Provided: (Continued)

Ordinary Death Benefits

Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first \$50,000 of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

Post-Retirement Benefit Increases

A cost-of-living adjustment is provided annually to: (i) all pensioners who have attained age 62 and have been retired for five years; (ii) all pensioners who have attained age 55 and have been retired for 10 years; (iii) all disability pensioners, regardless of age, who have been retired for five years; (iv) ERS recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement.

An eligible spouse is entitled to one-half the cost-of-living adjustment amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This cost-of-living adjustment is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed \$18,000 of the annual retirement benefit. The cost-of-living percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor but cannot be less than 1 percent or exceed 3 percent.

- C. Contributions:** The System is noncontributory except for employees who joined the New York State and Local Employees' Retirement System after July 27, 1976, who contribute 3 percent of their salary for the first 10 years of membership, and employees who joined on or after January 1, 2010 (ERS) who generally contribute 3 percent of their salary for their entire length of service. For Tier 6 members, the contribution rate varies from 3 percent to 6 percent depending on salary. Generally, Tier 5 and 6 members are required to contribute for all years of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required. The required contribution for the current fiscal year was \$216,277, for the 2020 fiscal year it was \$213,059 and for the 2019 fiscal year it was \$238,771.

D. Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions: At June 30, 2021, the North Babylon Public Library reported a liability of \$3,735 for its proportionate share of the net pension liability. The net pension liability was measured as of March 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The North Babylon Public Library's proportion of the net pension liability was based on a projection of the North Babylon Public Library's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2021, the North Babylon Public Library's proportion was 0.0037511 percent, which was a decrease of 0.0002987 percent from its proportion measured at June 30, 2020.

For the year ended June 30, 2021, the North Babylon Public Library recognized pension expense of \$121,292. At June 30, 2021, the North Babylon Public Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Difference between expected and actual experience	\$ 45,616	\$ 0
Changes in assumptions	686,768	12,953
Net difference between projected and actual investment earnings on pension plan investments	0	1,072,946
Changes in proportion and differences between employer contributions and proportionate share of contributions	121,110	48,965

NOTE 9: Retirement Plan (Continued)

D. Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions: (Continued)

\$60,061 of resources related to pensions resulting from North Babylon Public Library contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Amount Recognized</u>
2022	\$ (33,875)
2023	2,217
2024	(48,685)
2025	(201,027)
2026	<u>0</u>
Total	<u>\$ (281,370)</u>

E. Actuarial Assumptions: The total pension liability at March 31, 2021 was determined by using an actuarial valuation as of April 1, 2020, with update procedures used to roll forward the total pension liability to March 31, 2021. The actuarial valuation (prepared for the NYS Retirement System as a whole) used the following actuarial assumptions:

Inflation	2.70%
Salary increases	4.40%
Investment rate of return (net of investment expense, including inflation)	5.90%
Cost-of-living adjustments	1.40%

Annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2020. The previous actuarial valuation as of April 1, 2019 used April 1, 2010 – March 31, 2015 System experience, mortality improvements based on the Society of Actuaries' Scale MP-2018, inflation of 2.5%, cost-of-living adjustments of 1.3%, salary increases of 4.5%, and investment rate of return of 6.8%.

The actuarial assumptions used in the April 1, 2020 valuation are based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

**NORTH BABYLON PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021**

NOTE 9: Retirement Plan (Continued)

E. Actuarial Assumptions: (Continued)

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	32.00%	4.05%
International equity	15.00%	6.30%
Private equity	10.00%	6.75%
Real estate	9.00%	4.95%
Opportunistic portfolio	3.00%	4.50%
Credit	4.00%	3.63%
Real assets	3.00%	5.95%
Fixed income	23.00%	0.00%
Cash	1.00%	0.50%
Total	100.00%	

The real rate of return is net of the long-term inflation assumption of 2.0%

Discount Rate – The discount rate used to measure the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon those assumptions, the System’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10: Post-employment Benefits Other Than Pensions

- A. Plan Description:** The New York State Department of Civil Service (DCS) administers the New York State Health Insurance Program (NYSHIP) which provides health insurance to current and retired employees of New York State, and participating public authorities and local governmental units, such as the North Babylon Public Library. NYSHIP offers comprehensive hospital, medical and prescription drug benefits. As administrator of NYSHIP, the DCS performs all administrative tasks and has the authority to establish and amend the benefit provisions offered. Annual benefit premiums charged to and paid by participating entities are generally the same, regardless of each individual employer's risk profile. The annual benefit premiums collected by DCS are then remitted to the health insurance carriers that comprise NYSHIP. NYSHIP is considered an agent multiple-employer defined benefit plan, it is not a separate entity or trust, and does not issue stand-alone financial statements. North Babylon Public Library, as a participant in the plan, recognizes these post-employment benefits on an accrual basis.
- B. Benefits Provided:** Contribution requirements are determined by the Library Board. For employees hired prior to October 15, 2013, the Library will pay 95% of the amount for an individual policy premium and 50% for a family policy (after subtracting the individual fee from the family fee). For employees hired after October 15, 2013, the Library will pay 90% of the amount for an individual policy premium and 50% for a family policy.

For the fiscal year ending June 30, 2021, North Babylon Public Library recognized the cost of providing health insurance by recording its share of insurance premiums of \$92,056 (exclusive of Medicare D reimbursements) as an expenditure in the General Fund. The Library also reimburses retired employees and their spouses the full cost of Medicare deducted from their Social Security benefits, which amounted to \$41,675.

As of July 1, 2019, the following employees were covered by the benefit terms:

Active employees	18
Inactive employees entitled to but not yet receiving benefit payments	0
Inactive employees or beneficiaries currently receiving benefit payments	<u>12</u>
Total	<u><u>30</u></u>

NOTE 11: Reconciliation of Fund Financial Statements to Government-Wide Financial Statements

Total fund balance and the net change in fund balance of the Library's governmental fund differs from net position and changes in net position of the governmental activities reported in the statement of net position and statement of activities. This difference primarily results from the long-term economic focus of the statement of net position and statement of activities versus the current financial resources focus of the governmental fund balance sheet and statement of revenue, expenditures, and change in fund balance. The following are reconciliations of fund balance to net position and the net change in fund balance to the net change in net position:

Total Fund Balance - Modified Accrual Basis \$ 2,091,251

Amounts reported in the statement of net position are different because:

- Capital assets are not financial resources, and are not reported in the funds 2,528,641
- Deferred outflows on pension is not reported in the funds 913,555
- Deferred outflows on other post-employment benefits 468,742
- Compensated absences are included as a liability (366,645)
- Net pension liability is not reported in the funds (3,735)
- Deferred inflows on pension is not reported in the funds (1,134,864)
- Deferred inflows on other post-employment benefits (854,742)
- Obligation for post-employment health insurance, to be paid in future periods is not reported in the funds (4,216,249)

Total Net Position - Full Accrual Basis \$ (574,046)

Net Change in Fund Balance - Modified Accrual Basis \$ 468,323

Amounts reported in the statement of activities are different because:

- Capital outlays are reported as expenditures in the statement of revenue, expenditures, and changes in fund balance; in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:
 - Capital outlay 3,094
 - Depreciation expense (95,254)
